

TESTING PROCESS AND EXPECTED OUTCOME

Start the game

Click “see all bots” – should display all the bots

Click the “draw” button – should bring up a selection of bots

Add a bot to duo – should not be able to continue as you need exactly 2 bots

Add a 2nd bot to duo – “DUEL!” button should appear

Add a 3rd bot to duo – should be prevented from adding a 3rd bot

After adding 2 bots click “DUEL” – should add your bots and the computer's bots and have them duel.

Check to see if a win/lose message is displayed

Check that the player stats were updated properly

Click play again – should bring you to home page

Play until a win and loss is achieved

BUGS

The “see all bots” button does not display the bots

Upon a successful win the player's stats are updated with a loss

Wins: 0

Losses: 3

You won!
